Fabulous villa facing the most famous bahia in all of South America.

Wonderful beachfront villa with views to one of the most beautiful cities in the world, World Heritage Site, Cartagena de Indias. This villa with land of 509m2, offers an incredible location with beach in front and a few minutes walking from the most famous historic center of LatinoAmerica. This villa is sold as is for those who like a colonial house or for those who would like to make a residential building with beautiful modern apartments facing south where the sun comes

in, you can see the sea and from the back, the Cienaga de la Virgen with its wonderful manglars. It is definitely an opportunity not to leave, as you know Colombia is one of the richest countries in natural resources and it is growing exponentially giving so many advantages in a city that is growing every day. I, proud Cartagenera can vouch for its value and I see with my own eyes and those who live the city, the importance of its location. Do not let it slip away.
